Available for HD 1/2 ton up to 1 ton trucks, Sno-Way's 29 Series plows combine increased efficiency with maximum durability – a wining combination in winter's worst.

ultra-fast hydraulic system and multiple blade skin choices (steel, stainless or poly) provide the professional plower with an arsenal of snow fighting options.

Rugged and dependable, the 29" Series of blades are among Sno-Way's most popular models. The high-strength steel construction,

Standard features include the direct linkage system, variable height drive-in mount and trip return Shock Killer™ system.

### INNOVATIVE LIGHT HARNESS CONNECTION SYSTEM

Sno-Way's Energy Interruption System™ uses military spec electrical connectors to eliminate connector corrosion and provide positive fit in all weather conditions. This system also eliminates relays/modules for super fast installation.

Visit us at [www.snoway.com](http://www.snoway.com) for a current list of vehicle applications. Vehicle applications may change at any time without prior notice.
